DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1, 9, and 23 state that the stabilizer is present up to about 49 mol%, and the first component of this stabilizer may be present at 5-49 mol%. However, a second stabilizer component is required, therefore, the first component cannot have a concentration of 49 mol%. Please correct.

Claim 5 states the upper layer comprises hafnia and tantala while the lower layer further comprises hafnia. Is the upper and lower layer notations reversed?

Claims 6 and 7 state that the upper and lower layers comprise a certain thickness percentage. Is this the percentage of the entire thermal barrier coating?
